

Mr. Miller:

10-03-16P02:01 RCVD.

K. Heitman

Subject: RV Park trying to move  
into our Residential neighborhood  
on a Wet Land Area.

We all purchased our properties knowing we could live the rest of our lives in a quiet, nature filled area of Florida with permanent homes on lots from 1 acre to 40+ acres - in a Res/Ag. Zoned section - no temporary tourist who don't own the land - 300+RV - to hurt our quality of life. We moved from Palm Beach County - after 40+ years there - over six years ago to get away from greedy commercial businessmen - My husband and I found DeSoto County a perfect place to live. We found trees, nature and good water - all of which

has been destroyed in Palm Beach County  
by over building and not keeping  
Florida Natural + Beautiful.

I am 71 years old - My husband  
was hurt at work 8 years ago so I  
am the one that is working and  
paying taxes, insurance etc - this  
is our retirement home! There  
are many retirees, families with  
children, farmers, people still  
working, veterans, disabled -  
all who love animals and  
nature.

Please don't let an outsider  
with money and RV Park ideas  
ruin our Country Way of Life  
or destroy our country.

Save our Wetlands!

The RV Park will:

1. Destroy Nature, trees, plants  
Animals (deer, FP Panthers,  
goats, turtles, several  
kinds of birds, hogs,  
rabbits, raccoons,  
snakes, armadillos  
(all on this property)

if it's built up with concrete for RT Parking it will flood all our properties during rainy season or storms - Our flood insurance will increase and our properties will go down in value!

This could cause a ripple effect of Loyal DeSoto County taxpayers leaving for another family friendly county.

We need to go back to the values of DeSoto's founding fathers putting nature, farms and families first - not money.

When we fought this the first time - we thought that Mr. Paisley understood!

1. We are not a bunch of dumb people because we live in the country.

② We are not a big cattle pasture with no homes like the area around the Walmart D.C.

③ We are Florida - nature loving - country life styles - who moved here away from city lights, concrete that replaces trees and animals and noise and traffic.

④ We do not need strangers coming and going at all hours, crime, trash, or people who use our EMT's, fire, police and roads but will get gas in Pt Char., eat in Pt Char. and shop in Pt Char.  
Where's De Solos' profit?

I guess he thinks we are stupid since we live in the country - I've got news for him - we are educated - we value family, neighbors, schools, church and nature. Some of us still work and go to school - so noise at night just is not good!

Thanks  
Mary Jo +
